

MEN ORDERED NOT TO RETURN TO SOO WORK

New Grievances Hinge About Seniority and Numbers Returning

(From Tuesday's Daily)

With the Soo line strike apparently settled to the satisfaction of both road officials and employees, and strikers ready to go back on the job this morning, an unexpected turn in affairs occurred Monday night, which has wiped out at least temporarily, all agreements reached.

New grievances, pertaining to the method and numbers in which the strikers were to be taken back, occasioned the setback. The turn in affairs is reported to be general on the Soo system and includes Stevens Point. Local problems unlooked for have presented themselves, and at various points on the system varied obstacles have arisen.

Local strike headquarters were notified late Monday night from Minneapolis that the verbal understanding or agreement reached was not being complied with and that strikers were not to return to their jobs today. Seven carmen, two machinists and one boilermaker who had been notified late Monday afternoon to return to work this morning did not do so, being informed as soon as word was received from Minneapolis, that the strike was still on.

Objection Raised Here

Locally, the difficulty centers about one point, whether the Soo will take back all of the strikers in a short time, or whether they will employ only such men as are needed with the present crew kept intact. At Fond du Lac the trouble has been caused, it is claimed, by the manner in which the strikers' seniority is being handled. These issues are said to have arisen at other principal points on the system, causing R. A. Hennig of Minneapolis, general chairman of the Northwest Federated Shop Crafts, to notify the unions that the strike is to be carried on.

According to James G. Venable, head of the local strikers, the failure of the settlement to go into force today is caused by failure of the local officials at various points on the Soo to apply in practice the conditions of the verbal agreement as reached in Minneapolis last Saturday. Mr. Venable expressed belief that the Minneapolis officials were sincere in all points reached, and that with compliance with these points on the part of the road's local heads, the settlement would not have gone amiss. Mr. Venable contends that it was the understanding at the Minneapolis session that the men were to return in large groups and that all would be back on the job within a short time.

Willing to Start

Notification that 10 men would be taken back here today would not in itself have brought about difficulty, declared Mr. Venable, if the number were increased at a faster rate from day to day. The 10 men would have gone back, expecting that more would be called for, if the message received from Minneapolis late Monday night had not been sent, it was stated.

According to Mr. Venable, 40 strikers were ordered to return today at Fond du Lac, a number satisfactory to the strikers for the first day, the trouble there being caused by failure of road representatives to pick the 40 according to seniority, which was done here. Selection of the 10 men here was made on a seniority basis, the strike chairman said, this point being cause of dissatisfaction in Stevens Point.

None Back, Says Soo

Soo officials here had little to say today regarding the new trouble which has arisen. A. L. Filmore, master mechanic, confirmed to the Journal the report that the strikers ordered to return today had not reported for work, and that the regular crews employed during the strike were at work.

LIQUOR FINES HEAVY

Four Defendants Plead Guilty in County Court

Four fines totalling \$500 were levied on four county residents in county court before Judge W. F. Owen late Monday afternoon. Costs in the four actions totalled \$161.05.

The fines were assessed when as many defendants pleaded guilty to charges of violation of the liquor laws. The charges made followed wholesale liquor raids in the county over the past week end.

John Skibba of Junction City was assessed a fine of \$200 and costs of \$40.70, Mary Fisher of Hull fined \$100 and costs of \$39.45, Peter Augustiniak \$100 and costs of \$41.45, and Joseph Waresch \$100 and costs of \$39.45.

REUSE

1923 ROAD WORK UP TO COUNTIES

Except as Bonds are Issued, There is Likely to be no Concrete Construction Next Year

Madison, Wis., Oct. 24—The larger part, and perhaps all of the concrete road-building program of the state of Wisconsin will be determined, outlined and authorized at meetings of the county boards of the state in the 71 county-seat cities on November 14.

No federal aid is available for Wisconsin road-work at present on account of the state's failing to meet the \$1,700,000 appropriation from the United States government dollar-for-dollar. A. R. Hirst, chief highway engineer, told the United Press today.

One chance is still open for the federal road aid, however. The legislature next January will be asked to provide for \$7,500,000 to meet a similar amount of federal aid open for the three-year period starting in 1923. If this is provided for by the legislature, around \$2,000,000 from the federal government, and \$5,000,000 from the state government will be available to boost the road-building.

The county board meetings Nov. 14, however, will not be able to count on this federal aid being available, and will base their local programs on the amounts of bonds that can be issued.

The highway construction work for 1922 is, practically completed, with 335 miles completed out of the 450-mile program outlined this spring, Hirst said.

The mine and coal strikes cut on the supply of cement in July and August at the height of the road construction season, he pointed out, and only the fact that the highway commission and the county boards got a very early start last spring made possible this much.

At that, however, 1922 is within 10 miles of the high mark set in 1921, when 345 miles of hard roads were built, he said.

HUNDREDS HERE FOR DEDICATION OF MOOSE HALL

Nearby Cities Send Delegations For Ceremonies During the Day

Two hundred and sixty visitors from other cities in Wisconsin were in Stevens Point on Sunday afternoon and evening to attend the dedication of the new Moose temple on Strong's avenue at Park street.

The ceremonies, which started in the afternoon with a drill by the Eau Claire Moose marching club, lasted through the afternoon and evening. Two officers of the supreme lodge of Moose, General Dictator George N. Ward and Supreme Auditor Ben Mays, were present and were in charge of the dedicatory ceremonies in the evening.

Visitors were here from Fond du Lac, Wisconsin Rapids, Eau Claire, Wausau and Antigo, while the lodges at Fond du Lac and Antigo sent their degree staffs and drill teams.

Open at 1:15

The ceremonies opened for the day at 1:15 in the afternoon, with a concert by Weber's band, which accompanied the exhibition by the Eau Claire marching club of 30 members. Non-members were privileged to witness this exhibition, after which the main hall of the temple was cleared for the initiation into the first degree of the 14 candidates. The degree was conferred by the Fond du Lac degree staff and drill team. The second degree was conferred on 25 candidates by the Antigo degree staff and drill team.

While the Moose initiation was being conducted in the main hall on the second floor, the Women of the Mooseheart Legion, initiated a Wisconsin Rapids chapter of the lodge room on the main floor. Thirty were initiated into this order.

400 at Banquet

Four hundred people were accommodated at a banquet at 6 o'clock in the lodge hall on the first floor, when an appetizing menu was served by the Women of the Mooseheart Legion. Music was furnished during the banquet hour by the Original Florida Seven orchestra.

The formal dedication of the new building in the name of the supreme lodge and the local lodge took place following the banquet, in the main hall on the second floor. The ceremonies were impressively carried out, with General Dictator George N. Ward acting as Supreme Dictator. Mr. Ward was assisted in the ritualistic work by the following: Supreme Auditor Ben Mays, Mooseheart, as supreme vice dictator; William Dyhr, Fond du Lac, as supreme prelate; William F. Tannhauser, Milwaukee, as supreme past dictator; D. V. Hart, Wausau, as supreme sergeant at arms; Ed. Jess, Wausau, as supreme inner guard, and Ed. Goss, Eau Claire, as supreme outer guard.

Following the dedication, which was open only to members of the Moose order, a program was carried out in the main hall, with William F. Tannhauser of Milwaukee as master of ceremonies. The chief speaker was General Dictator Ward, who closed the day's program with an inspiring address on the principles of the Moose order. He told of the organization of the order 14 years ago by James J. Davis, who came to this country as a poor immigrant boy and is now a member of President Harding's cabinet. From an humble beginning the Moose order has grown until now it is exceeded in numerical strength by only two fraternal orders. Last year, Mr. Ward related, more than 71,000 new members were taken into the order. Mr. Ward emphasized the great service the Moose order is doing in caring for and educating the children of deceased Moose and to this service attributed the wonderful growth of the order.

Mr. Ward was given an attentive hearing by several hundred people and was given cordial applause during the course and at the close of his address.

Other speakers in the evening program were D. V. Hart of Wausau, who proposed a toast to the local Moose lodge; Ben Mays of Mooseheart, who talked largely on the new Moose institution, Moosehaven, near Jacksonville, Fla., where aged members of the order and their wives will be cared for, and James Geraghty of Milwaukee, who gave a brief but enthusiastic talk on the Women of the Mooseheart Legion and the Junior Order of Moose. The Orton male quartet, composed of Prof. H. S. Dyer, N. J. Nickles, H. R. Steiner and A. J. Miller was on the program and was encored repeatedly. Visiting Moose members, including the supreme lodge officers, were profuse with their praise of the new

SOMEHOW HE JUST CAN'T GET THE THRILL

CATTLE TUBERCULOSIS GETS FARM ATTENTION

Movement on Foot in Portage County to Make Concerted Effort at Testing

As many northern counties have already cleaned up tuberculosis in cattle, and with a similar movement now on foot in Wood, Clark, Marathon and Waupaca counties, many farmers of Portage county feel that Portage should make a move. At present there are quite a number of herds in the county that have been tested, either by a local veterinarian or by the state department. This is, however, a slow method of cleaning up the disease in the entire county, and therefore the new plan has been devised.

The plan under which many other counties have tested is as follows: the state and federal departments of agriculture will test every animal in the county and pay an indemnity for all reactors providing that a petition to have all cattle tested is signed by 60 per cent of all cattle owners. The test is free to the farmer. The state, however, will not come in and test a portion of the cattle if less than 60 per cent sign the petition.

The indemnity paid the cattle owner varies according to the valuation of the reactors. The state and federal department of agriculture will pay one-half the difference between the appraised value and the net salvage, but in no event will they pay more than \$40 for a grade and \$90 for a pure bred. The owner receives the net salvage. For instance, the owner loses one cow valued at \$100 and her carcass brought him \$20 as salvage. He would then receive one-half the difference between the appraised value \$100, and the net salvage, \$20, which is \$40, and a total of \$80 for the animal. He is being paid for a diseased animal which he is ordinarily anxious to get rid of.

Farmers of Portage county are urged to think this matter over by those interested. It is far easier to check the spread of tuberculosis at the start than in later years, when the percentage of reactors may run 15 per cent or more as is the case in northern Illinois and New York.

TAX SALE IS INVALID

Opinion to District Attorney From State Department

Tax certificates purchased by individuals subsequent to purchase of a tax certificate on the same property by the county are invalid, according to an opinion to District Attorney B. J. Carpenter by Deputy Attorney General Ralph M. Hoyt.

The question was raised in Portage county when it was discovered that individuals in several instances in the county had purchased tax certificates on property on which the county had already purchased the certificates at the tax sale. The county's prior purchase makes the subsequent sale invalid, the opinion explains.

Mr. Hoyt's letter to the district attorney follows:

"You state that Portage county is the holder of a tax certificate on a piece of land in that county and that an individual has bought two subsequent tax certificates. Your letter raises the question as to whether the individual can get the tax certificates and thereby cut off the county and whether it is necessary for the county to purchase the individuals' certificate in order to have a clear title.

"Section 75.32 of the statutes provides: 'Real property upon which the county holds any certificate of tax sale shall continue liable to taxation and to sale for unpaid taxes, and the county shall be exclusive purchaser at the sale.'

"Under this provision of the statute, the subsequent tax sales to the individual in your letter are invalid. 'The invalidity, however, is not of such nature that it affects the ground work of the tax and the county is, therefore, not liable to refund as provided in sec. 75.22. (formerly 1181). 'Your questions are, therefore, both answered in the negative.'

PUT END TO WAR ASKS CANDIDATE IN SPEECH HERE

Soldier Bonus Expensed And Ship Subsidy Scored by Mrs. Hooper

Mrs. Jessie Jack Hooper, Democratic candidate for United States senator, delivered an enthusiastic address at the court house on Saturday evening. Mrs. Hooper in her talk, stood for a change in the primary laws, the lakes to ocean seaway, the soldier bonus, reforestation, a league or association of nations, and against the present tariff bill and the franking privilege.

"Primary Wrong"

"I do not blame the Democrats who entered the Republican primary this year," she said, "for there was a great temptation to enter the Republican fight. I blame the present primary method, for I believe that the large number of contests for county offices on the Republican ticket was responsible in a great measure for the desertion, by the Democrats, and their entering the Republican fight. I believe that local elections should be separated on the ticket from the legislative and senatorial elections.

"I have made up my mind to beat Senator La Follette and think there is a possibility of doing so. It is impossible to find any Republican party any more, so I expect all straight Republican and Democratic voters to cast their ballots for me."

For Deep Waterway

Speaking of the deep waterway, she said: "I stand for the deep waterway, and if I'm elected shall do all in my power to further this cause. This is one question on which I cannot see how anyone could stand against it. Just think what it will mean for our great middle west, how it will bring prosperity to us, in the shape of cheap freight rates for our grain, for all that we market and must secure. Prosperity, of course, in the middle west, means prosperity for all."

"On reforestation, she said little, but spoke fervently for it. It is necessary, she declared, to reclaim our dwindling forests, not only for the timber that must be grown, but to prevent freshets in the spring. The lack of forests to prevent the quick melting of snow in the spring causes the freshets, she said.

"I am opposed to this new tariff they have made in Washington," she declared. "It is a bad tariff, and I shall oppose anything that is made for special interests. It is a tariff which was the result of the actions of a vicious circle, a 'you help me get what I want and I'll help you get what you want,' kind of a circle. The United States has become a great creditor nation. Other nations cannot pay us their debts in money, for they have none. They must be allowed to make their payments in goods. This tariff wall which has been erected around us will prevent this payment in goods. If we do not attempt to trade with the other nations, they will not trade with us. They want to buy, but the tariff prevents.

Causes Fancy Prices

"This tariff is the cause for fancy prices on everything we get. I believe in a tariff for all the people through a tariff commission that is a tariff commission, and whose reports are not pigeonholed, and the bill made by those who have interests to serve."

The franking privilege was characterized as a means by which the congressmen and senators at Washington distribute their campaign literature in the form of free seeds and speeches at the country's expense. "You'll never get a speech franked by me if I'm elected to congress," she declared in vehement terms. "Nine out of every 10 packets of seeds that you get 'free' from your congressman or senator won't grow. I'd rather see that money spent in seeds invested in a children's bureau."

KUHL MACHINE IS WRECKED IN BAD COLLISION

Accident Occurs While Party Is Enroute Home From Football Game

One Stevens Point woman is so badly hurt that she is confined to her bed and five other local people are recovering from less serious injuries, the result of an automobile smashup on Highway 10 two miles south of Merrill late Saturday afternoon which almost totally wrecked one car and badly damaged another.

Local victims of the accident are Mrs. E. W. Langenberg, Mrs. Fred Kuhl and her son, Fred, Jr., Miss Constance Davis, daughter of Mr. and Mrs. L. P. Davis, 548 Normal avenue, a high school student, Kenneth Barnes, son of Rev. and Mrs. R. A. Barnes and Louis Kulitch, a high school teacher.

All six people were occupants of the Kuhl touring car, driven by Fred Kuhl, Jr., which was wrecked and tipped over in a collision with another touring car driven by Clarence Champlin of Mosinee as they were returning home after attending the Stevens Point-Merrill high school football game at Merrill. Champlin and another man who was in his car escaped injuries.

Other Driver Swerved

According to the occupants of the local machine, the other car was seen approaching down grade at a fast rate of speed. They say that Champlin suddenly swerved to the right and almost went into the ditch, then quickly turned to the left to right his car and crashed broadside into the Kuhl automobile, causing it to tip over on its side. This version of the accident is further confirmed by occupants of another car containing local people who were a short distance behind and witnessed the crash. The injured were brought home in cars carrying the local football team which arrived at the scene just after the accident.

Mrs. Ed. Langenberg was the most seriously injured. She was thrown from the car when it was struck and suffered cuts on the back of her head which required several stitches to close after arriving home. She was also badly shaken up and generally bruised and was unconscious for some time after the accident. Her head was badly bruised in addition to the cuts.

Others Unconscious

Mrs. Kuhl suffered bruises on her head, neck, back and arms and was also rendered unconscious. Her son, Fred, Jr., escaped with slight bruises, one of them caused, it is believed, by being struck on the head by a monkey wrench which flew out from under the front seat from which he was thrown. Miss Davis was generally bruised and shaken up and was rendered unconscious. Mrs. Kuhl and Miss Davis as well as Fred Kuhl were thrown from the front seat of the car, the three others in the party occupying the rear seat. Kulitch and Barnes suffered bruises when thrown out of the car. Kulitch found himself hanging by his arms from the roadside. He pulled himself loose from his coat, which was torn by the wire, and rushed to the place where the car lay on its side, immediately put his legs over the emergency railing in practice, and then the others. Barnes jumped a foot being on the top of his head when he was out. Kulitch was thrown through the top of the car.

Whitcomb Beyond Repair

The Kuhl car was wrecked almost beyond repair. Its left side was crushed in the left front wheel and both wheels on the right side broken off, fenders demolished and other damage done. The other machine was also badly damaged, its radiator being shoved in, front springs broken and axle and frame bent.

Other Stevens Pointers who arrived at the scene a few moments after the crash were John and Emil Bannach, who were bringing members of the local football team home in two cars. All went to the assistance of the victims and brought the injured home. It was decided to forego medical attention until Stevens Point was reached. Kenneth Barnes was given a ride by a traveling man as far as Wausau and from there took a train to Junction City, where he was met Saturday night by his father, Rev. R. A. Barnes, who drove to the Junction to get him.

Shove Torn from Foot

It was found after the accident that one of Mrs. Langenberg's shoes had been torn from her foot when the spill occurred. The accident occurred shortly after 5 o'clock when it was still light. The wrecked machine was left by the side of the road. It was so badly damaged that it could not be towed away and Mrs. Kuhl said any part of it except the motor would be worth bringing home. It was said that the machine rose up into the air from the force of the crash before it tipped over. The motor was still running when the accident was all over.

A bail bond in the sum of \$5,000 was required.

OBITUARY

Lanark Pioneer Dies

Mrs. Mary Hickey, a member of the oldest family in the town of Lanark, expired at her home Saturday afternoon, October 14, and was buried from St. Patrick's church Tuesday morning, interment taking place in the adjoining cemetery. Requiem high mass was offered up by the pastor, Father Krill, assisted by Rev. A. J. Quella and Rev. John Edepsky, former pastors there. The attendance was large, attesting to the high regard in which the deceased was held.

Mrs. Hickey suffered a paralytic stroke early last spring and had since been an almost helpless invalid.

Mary Hopkins was born in County Roscommon, Ireland, 73 years ago, the family emigrating to America when she was a child of two or three years and shortly afterwards settled in Lanark. She was married there to James Hickey and had been a continuous resident of that town for 70 years.

There are six sons and daughters, James of Manitowish, Mrs. John Shea, Mrs. Daniel McLaughlin and Margaret Hickey of North Dakota, Daniel John and Julia Hickey of Lanark. A brother John Hopkins, resides in Lanark and is the sole survivor of a large family.

Burial of a Pioneer

Nathan M. Towle, pioneer Stevens Point and for many years engineer of the old steam fire engine, was laid to rest in Forest cemetery Thursday afternoon. Services, conducted by Rev. E. Croft Gear of the Church of the Intercession, were held at the home of Mr. Towle's daughter, Mrs. John Rowe, at 3 o'clock, when many friends took the opportunity to pay a last tribute of respect. Casket bearers were four nephews of the deceased, Frank F. Cook, Russell, Nat and John Kinney, Jr.

Martin S. Murat

Martin S. Murat, brother of Judge John A. Murat of this city, died Friday afternoon at 1:15 o'clock at his home in the village of Amherst. He had been in failing health since early summer and suffered a slight stroke on October 12. Although he had partially recovered from its effects, it is believed that this affliction hastened the end.

Mr. Murat was born in Milwaukee on June 28, 1845 and left there with his parents when still a child for Neeshotah, Waukesha county. The family moved from there in 1856, settling on a farm in the northeast part of the town of Amherst, now the town of Louis S. Murat home. He attended the county schools and later had two terms at Luther college at Decorah, Ia.

After completing his education Mr. Murat followed railroad work for a couple of years, afterward entering into the mercantile business at Amherst with J. O. Foxen. Both members of the firm retired about 20 years ago, closing out their business at that time. Mr. Murat had since lived in the village.

During his residence there he served as justice of the peace and village assessor and had also held other offices. He was a leading member of the Norwegian Lutheran church at Amherst for many years, and was a trustee of the Indian school near Wittenberg, which is conducted by the Lutheran synod.

Mr. Murat was married to Caspara Jensen of the town of Scandinavia, Waukesha county, on August 4, 1870. There is one adopted daughter, Miss Olga Murat of Amherst. The deceased also leaves the following brothers and sisters: Judge John A. Murat of Stevens Point, Mrs. E. Ellstrom of Iowa, Mrs. E. Johnson of Scandinavia, Mrs. Henry M. Anderson of Oakland, Calif., and Louis S. Murat at the old home in the town of Amherst.

Funeral services were conducted from the Norwegian Lutheran church at Amherst at 1:30 o'clock Monday afternoon. Rev. Mr. Thompson of Wausau officiated. Burial was in the Lutheran cemetery east of Amherst.

Loss Only Child

Ernestine, baby daughter and only child of Mr. and Mrs. Joseph C. 344 W. Barton avenue, died at 11:30 o'clock Sunday night, aged 15 days. The funeral was held from St. Peter's church at 9 o'clock Tuesday morning, with interment in Guardian Angel's cemetery.

BOY STRUCK BY CAR ONLY SLIGHTLY HURT

Paul, 11 year old son of Mr. and Mrs. Herman E. Pagel, 818 Clark street, was struck by an automobile driven by Frank Jelenki, 703 First street, at the intersection of Strong and Mill streets shortly after 1 o'clock Monday afternoon.

The boy was riding a bicycle at the time and was not slightly injured. He was removed to a doctor's office following the accident. Jelenki, who was driving south on the avenue, could see the boy at the intersection and slowed down and swung over, turning the left to avoid hitting him but could not prevent the accident.

MEETS HORRIBLE DEATH ON SHORE OF LANARK LAKE

Bloody Gaping Hole Is Torn By Discharge At Close Range

(By Special Correspondent)

Amherst, Oct. 23.—Lola Oberst, 17, daughter of Conductor William Oberst of Fond du Lac, met a terrible death early Sunday morning on the shores of Spring lake in Lanark, when his shotgun accidentally exploded and the charge tore through his neck, ripping a bloody, gaping hole.

His body, lying part in and part out of his duck boat, was found early Sunday morning by Lanark people on their way to church. The shotgun was lying in the bottom of the boat, which was drifting near the shore of the lake. Oberst was hunting alone, and no will probably ever know just how the accident happened.

Had Helped in Harvest

The boy had been assisting in the potato harvest on the farm of Otto Borchert near Amherst. His stepmother came up from Fond du Lac to spend the week-end, and on Saturday she saw him, and asked him to come to the village to spend Sunday and attend church in the morning.

He replied, it is said, that he had planned to go duck hunting early in the morning, and intended to get up before dawn to go to the lake, only a short distance away. He left early, it is known, and the next word of his hunting expedition came in the story telling of the discovery of his dead and shot-riddled body on the lake's shore. The gun evidently was exploded at close range, the nature of his wound disclosed.

Notice is hereby given that a general election is to be held in the several towns, wards, villages, and election precincts in the county of Portage, on the 7th day of November, 1922, at which the officers named below are to be chosen. The names of the candidates for each office to be voted for, whose nominations have been certified to or filed in this office, are given under the title of the office and under the appropriate party or other designation, each in its proper column, together with the question submitted to a vote, in the sample ballot below.

INFORMATION TO VOTERS

The following instructions are given for the information and guidance of voters:

(A) A voter upon entering the polling place and giving his name and residence, will receive a ballot from the ballot clerk which must have indorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot, the voter must retire alone to a booth or compartment and prepare the same for voting. A ballot clerk may inform the voter as to the proper manner of marking a ballot, but he must not advise or indicate in any manner whom to vote for.

(B) If a voter wishes to vote for all the candidates nominated by any party, he shall make a cross or other mark under the party designation printed at the top of the ballot in the circle made for that purpose. A ballot so marked and having no other mark will be counted for all the candidates of that party in the column underneath, unless the names of some of the candidates of the party have been erased or a name shall be written in or a cross mark be placed in the square at the right of the name or names of candidates in another column. If the voter does not wish to vote for all the candidates nominated by one party, he shall mark his ballot by making a cross or mark in the square at the right of the name of the candidate for whom he intends to vote, or by inserting or writing in the name of the candidate.

(C) A voter may vote upon a question submitted to a vote of the people by making a cross (X) or mark in the square at the right of the answer which he intends to give.

(D) The ballot should not be marked in any other manner. If the ballot be spoiled, it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all shall be issued to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memorandum to assist the voter in marking his ballot can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter.

(E) After it is marked it should be folded so that the inside cannot be seen, but so that the printed indorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place.

(F) A voter, who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of two election officers in marking same, to be chosen by the voter; and if he declares that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath in his discretion, as to such person's disability.

(G) The following is a facsimile of the official ballot.

CONCRETE ROAD FAR AS AMHERST ON HIGHWAY 18

Chamber of Commerce In First Step to Bond County For It

By unanimous resolution of the board of directors of the Chamber of Commerce, the chamber went on record at a meeting Wednesday afternoon to ask for the bonding of the county to permit the construction of a concrete road from Amherst to Stevens Point. The secretary will begin work at once to acquaint the public with the need of the road and to work out a plan for financing it.

Hirst Points Way

When State Highway Engineer Hirst was here last week he explained how the improvement could be procured. "If you want to secure concrete roads," he said, "in Portage county, you will have to bond yourselves just as other counties do."

Mr. Hirst said that the cost of a mile of concrete road in 1923 would be about \$30,000, but that owing to the proximity of a gravel pit on road 18, he estimated that this stretch could be put in at \$25,000 per mile. This would make the total cost about \$400,000 from Stevens Point to Amherst, and proportionately more if the road were extended to the Waupaca county line. It is felt that it is beyond the capacity of the county to handle this amount in a direct tax, and that it is fair to bond it and let the public pay the cost over a series of years.

State Pays Big Share

Mr. Hirst said that the state would stand 40 per cent of the cost, payable as the bonds were retired.

Wood county got its good roads because it bonded itself to get them. "The state is not partial to any part of the state," Mr. Hirst said, and he suggested that each section must do something to help itself.

Kiwanis For It

The Kiwanis club at its next meeting is expected to pass a sustaining resolution on the same subject.

DEFENDANTS WIN CASE

Signatures on Alleged Contract Found to be Fraudulent

The 16 Wisconsin Rapids, Port Edwards and Biron citizens who were made defendants in an action tried in circuit court for Wood county at Wisconsin Rapids before Judge B. B. Park of this city won their claim that they were not financially responsible for a \$500 debt incurred by the Mutual Ewell Chautauqua Bureau. Verdict of the jury which heard the case found that one-half of the signatures of the defendants, which were presented as evidence on an alleged contract, had been forged while the other half were fraudulently used.

GROWS LARGE POTATOES

George Wolf, a former member of the county board, who resides north of Junction City, has brought four samples of Rural Russet potatoes of unusual size to the First National bank, where they are on display. Each weighs a pound or more. They are firm and regular in dimensions despite their extraordinary size.

Mr. Wolf also brought in several samples of potatoes known as Blue Vectors. This is a variety which is grown quite extensively in Poland, according to a number of Portage county farmers coming from that country who have seen those on display at the bank.

Man Shot In Leg In Hunting Trip On River Island

The second shooting accident in less than a week's time occurred on an island in the Wisconsin river a short distance north of the city when a shot gun in the hands of Adam Zdroik, 700 Forest street, accidentally exploded and the charge of shot entered the legs of Felix White, Wadleigh street.

Thomas Johnson, city, is in St. Michael's hospital, where White is now a patient, after being shot in the arm last Saturday when a rifle in the hands of his brother-in-law, Edward Olson, who had borrowed it from a son of Johnson to use on a hunting trip, was accidentally discharged.

Zdroik and White were hunting on the island, and were some distance apart at the time of the accident, it was learned. Zdroik had discharged a shell in his guage shot gun, and had pumped another shell into the chamber of the gun, when his finger accidentally touched the trigger and the shell exploded.

Had White been much closer to the barrel of the gun, his legs might have been torn to pieces by the fine shot. Standing some distance away, the shot scattered and entered his legs, principally his right limb, from below his knee up to his hip.

Zdroik succeeded in bringing the injured man across the river, and he then was brought to the city in an automobile. A physician was immediately consulted and White taken to the hospital.

PORTAGE COUNTY'S CRITICISM WRONG

Events Justify Value of Concrete Highways in Wood County, According to A. R. Hirst

Suggestion that the Portage County "highway commissioner" was wrong in criticizing Wood county for its concrete highways, and that the wearing out of gravel roads in Portage county proved it, was made by State Highway Engineer A. R. Hirst in his speech at the Wisconsin Rapids bridge dedication, according to quotation in the Wisconsin Rapids Tribune. According to the Tribune, Mr. Hirst said in part:

"When Wood county bonded itself to the extent of \$1,500,000 for paving, that act was ridiculed by the Portage county highway commissioner who said that you were plunging yourselves into bankruptcy, while your neighbors to the east are driven to a constantly increasing expenditure by the failure of the gravel roads on 10 and 18 to stand up under traffic."

"Wood county is the only county of its valuation class that has bonded itself for the completion of a comprehensive program of concrete highways," Mr. Hirst said in praising the work that has been accomplished there. "The burden of taxation may seem heavy at times, and I know that there have been many complaints by residents of the county, but I venture to assert that now that the work is nearly completed there is not one man in the county who would ask to have the pavements torn up if by so doing he could restore to his pockets the money paid in extra taxes for the sake of better highways. In fact it is established that for the heavy automobile and truck traffic of today the concrete highway is in the long run the cheapest."

J. P. LUKASAVITZ WINS CONTRACT ON PUMP HOUSE

Local Man to Have Building Finished By December 10

J. P. Lukasavitz of Stevens Point was on Wednesday afternoon awarded the contract for the erection of the pump house for the new Stevens Point water plant at the Big Plover river.

The three bids entered with the water commission were as follows: J. P. Lukasavitz, \$4,846.69, plus \$100 for stone facing on four sides, totalling \$4,946.69.

Otrich & Shropshire, Stevens Point, \$5,201.88, plus \$135 for stone facing, four sides, totalling \$5,336.88.

Immel Construction company, Fond du Lac, \$8,384, total cost.

Start Job Immediately

At the conference of the water commission with the contractor Wednesday afternoon, Mr. Lukasavitz, in accepting the job, agreed to have the building erected by December 10. He will start work immediately and hopes, if there are no unforeseen delays, to have the pump house finished before that time.

In order to hurry the work along, the water commission gave the work of putting in the basement to the Cast Stone Construction company, which has the job of putting in the concrete sides for the big well that is to supply the city with water. The Cast Stone company had its concrete-mixing equipment on the job, and the walls of the basement were poured on Wednesday. When Mr. Lukasavitz has his material for the work moved to the city property near the river, the basement walls will already be dry, it is expected, and he can begin work immediately. The bid entered by him includes the cost of having the basement erected by the Cast Stone company.

Get Good Price

Close competition, and the fact that the work is to be done at the slack time of the year for building contractors, resulted in the commission getting the job done for less than had been estimated. Members of the commission had felt that the pump house would cost between \$6,000 and \$7,000, and were agreeably surprised to find that the building could be erected for less.

The pump house will be one story in height, 27x50 feet in dimensions, and will be erected of native stone, somewhat similar to that being used on the new St. Stephens church building. It will have a cement floor, and the roof will be covered with composition shingles.

WAUPACA MEN HURT IN AUTO SMASHUP

Amherst Woman Called to Neighboring City When Relatives Are Injured

(By Special Correspondent)
Amherst, Wis., Oct. 23.—Mrs. Richard Wilson was called to Waupaca last Thursday afternoon on account of an auto accident and smash up which involved her son-in-law, S. E. Sanders, and Clinton Hartman of Waupaca. The accident occurred between Green Bay and De Pere and both men are in a Green Bay hospital, badly injured. Mr. Sanders, who owns the Ford garage in Waupaca, and his salesman, Clinton Hartman, left for Green Bay in the morning to attend a meeting of Ford dealers and salesmen. The trip was made in a new Ford sedan, which was completely wrecked.

According to reports from Green Bay the sedan was crowded off the road near the state reformatory by a large car. In its descent it struck a tree, turning over several times. The two men were picked up unconscious and rushed to a hospital in Green Bay. Mr. Sanders was badly cut on the neck and had it not been for first aid by the men who carried him to the hospital he would have died to death before medical aid could have reached him.

At first it was thought that his condition was critical, but later reports state that if complications do not set in he will recover. Mr. Hartman received bad cuts and bruises, which were not considered dangerous at first but he has not been getting along as well as expected and it is feared he has some internal injuries. Both Mrs. Sanders and Mrs. Hartman are with them at the hospital and it will be some time before the patients will be able to leave for their homes.
